

MS Reproductive Biotechnologies _ University of Teramo

Integrated course **Biology of gametes, IVM and IVF Techniques:**

Biology of gametes (Prof. Peserico)

IVM and IVF (Prof. Gioia)

A.Y. 2024/25

IVM and IVF module (Prof. Gioia): details on the modality of VERIFICATION OF LEARNING

Theoretical and practical learning and skills will be **evaluated in real-time modality during the three-four weeks of the course** by:

- achievement of **laboratory skills** and capability of **team working**;
- quality of the **laboratory reports on the procedures of IVM and IVF techniques** carried out during the laboratory activities;
- **tests (multiple choice and true/false answers) on IVM and IVF techniques.**

Students who fail to engage in the lessons and/or the course laboratory activities, as well as students who are not satisfied with the final score obtained are the only ones who have to take the final exam in one of the official dates scheduled available in UniTE web site
