

1. Only student correctly registered on segreteriaonline.it can participate.
2. Bring an ID document the day of the exam.
3. The exam is **WRITTEN**. Bring a pen.
4. The **calculator** is needed. Nothing else is allowed (notes, books). No connected device is allowed (smartphone, tablet, laptop, smartwatch).
5. The exam is **passed** with a total score **from 18 (included) to 33**. From 0 to 17 (included) the exam is not passed. From 25 (included) above, you gain access to an **optional oral exam**
6. Students willing to do the optional oral exam must communicate it ASAP to Prof. Notarstefano
7. In order to **ACCEPT** the score obtained in the written exam and register the evaluation, it is necessary to be **PRESENT** the day that will be communicated, since **a signature is needed**.
8. If a student has serious issues in being present the day of registration of scores, it is possible to accept the score by sending an email to the professor, **by compiling the form that is provided on the e-learning platform**: by this form the student declares to accept the score and provides info on name, student ID, passport/personal ID (also scanned), and must **SIGN** the form. In this way, the signature in presence can be substituted.

PLEASE REMEMBER from previous announcements:

1. The test will be organized as follows: **16** true/false theory questions; **12** multiple choice theory questions; **3** multiple choice exercises. The theory questions will be on Mathematics, Statistics, and Physics; the exercises will be on Physics
2. **True/false questions** will have a score of 0.75 points; **multiple choice theory questions** will have a score of 1 point; **multiple choice exercises** will have a score of 3 points
3. The **calculator** is needed. Nothing else is allowed (notes, books). No connected device is allowed (smartphone, tablet, laptop, smartwatch). If you forget the calculator, you will not be allowed to use the smartphone to do calculations.
4. Students are allowed to **repeat** the exam **BUT** please remember, once the exam is repeated, the previous one is cancelled. So, the valid exam is always the **last one**.
