

FATTY ACIDS-BASED MEMBRANE LIPIDOMICS: FROM CHEMICAL BIOLOGY TO MOLECULAR DIAGNOSTICS

Calendar	Content	Schedule	Professor
Wednesday 18/04/2018	<ul style="list-style-type: none"> The lipid classes and fatty acids as principal components: an overview of structures, functions and the main physiological /pathological roles Exogenous & Endogenous Trans Fatty Acids (Part 1) 	Afternoon	<p>C. Ferreri</p> <p>C. Chatgililoglu</p>
Thursday 19/04/2018	<ul style="list-style-type: none"> Exogenous & Endogenous Trans Fatty Acids (Part 2) Fatty acid-based membrane lipidomics: the concept of membrane remodeling applied to molecular diagnostics 	Morning	<p>C. Chatgililoglu</p> <p>C. Ferreri</p>
